Nortel Networks Ref No.: 14411HUUS02U
Our File: NORT10-00073

Dear Mr. Rogers:

By letter dated March 15, 2002 (from Mr. Denis Maloney of Fish & Richardson), a Combined Declaration and Assignment for the above-identified U.S. patent application were forwarded to you for signature.

Apparently, the previous law firm handling this application did not receive (or may have lost) the signed Declaration and Assignment for this particular U.S. patent application; however, the documents forwarded to you under the same March 15 letter for another U.S. patent application were signed by you and ultimately filed with the U.S. Patent Office. On June 18, 2002, I left a message at your home phone number (603-889-8332), but have not yet heard from you.

Accordingly, we enclose the Combined Declaration and Assignment documents for your signature. Please sign and date the Combined Declaration. Please sign and date the Assignment in the presence of a Notary Public who should apply his/her seal.

Also enclosed is a copy of the patent application. Please note, the application is proprietary to Nortel Networks and should not be disclosed.

Please return the executed documents and application to us in the enclosed self-addressed Federal Express envelope as soon as possible.

Dear Jeff:

The U.S. Patent Office has now informed us that a signed Combined Declaration and Power of Attorney form must be filed by the due date of **April 5, 2002 and April 19, 2002**. This deadline may be extended automatically for up to four one-month periods upon payment of an extension fee. However, these fees are significant and increase monthly, so prompt action is recommended.

Please sign and date the Combined Declaration. Your signature must be exactly as typed. It is not necessary to use a Notary for this document.

Also enclosed is an Assignment. This should be signed in the presence of a Notary Public who, in turn, should apply his/her seal.

A memorandum attached to this letter explains the purpose of an Information Disclosure Statement; it is essential that you read this memorandum and call to our attention anything that you think might be a candidate for inclusion in the Statement. An incomplete Statement can under some circumstances result in unenforceability of the patent you hope to obtain.
